

Leithridge Hanging Postponed.
Leithridge, Dec. 14.—Ward Charobolt, murderer, condemned to be hanged here tomorrow, has till January 14th to live, the Minister of Justice having postponed the hanging because today the court received a copy of Chief Justice Hargrave's charge to the jury at the trial.

Saskatoon Men Invest.
Prince Albert, Dec. 14.—Saskatoon investors bought about one hundred Wisconsin dollars worth of property here today at the cost of the city.

The defeat of local option has apparently started a live movement as several other deals are also reported.

BRAMLEY MOORE IS IN LIMELIGHT

RESOLUTION DECLARING MEM-
BERS LATE ADMINISTRATION
UNWORTHY REPROACH.

A. Bramley Moore was in the limelight for a brief period in the Legislature yesterday afternoon. He furnished the only sensation for some days past and it looked for a time as if he might change the House into a prolonged discussion. Mr. Moore had a resolution which he endeavored to get before the House but was unsuccessful yesterday. It will likely come up at a later date.

The resolution which was introduced by W. P. Puffer was as follows: "Whereas a royal commission was appointed to investigate certain matters relating to the transactions of the late government with the A. and G. W. Railway Co., and a report has been laid on the table of the House.

"Therefore be it resolved that it is the opinion of this House that the personal integrity of the late government with respect to the matters investigated is above reproach."

The order of "Motions other than Government" under which Mr. Moore could produce his resolution had not been reached by the Speaker when Premier Sifton moved that the House go into committee of supply. This would shut out the member for Alexander, who at once raised a protest.

Premier Sifton pointed out that the order had not yet been reached and it began to appear as if Mr. Moore was to be locked out of getting his motion before the Legislature.

The member finding that he could not present the resolution moved the adjournment in order that he might address the members. He said he thought the members of the late administration should be vindicated by the Legislature. Many members wished to see this action taken.

Claude Belling By.

Dr. Rutherford slipped in the breach of the point and threw off his troubles.

"I am quite willing that this should stand," he said. "We have been under a little cloud but it is passing away and I am willing to let the cloud until all the clouds pass away."

(Applause).

Mr. Bennett: "Wait till the clouds roll by."

Premier Sifton suggested as the member for Barthelet had asked the resolution to stand over it should not be pressed out of consideration to his feelings.

Mr. Moore after further discussion withdrew his motion to adjourn and the business proceeded.

E. A. Walker received answers to the following questions from the Premier:

Has the Canadian Northern started their Vernon-Blairburn line?

way of Whittford Lake, the bonds of which were guaranteed by the Alberta Legislature.

Answer: It is not yet started.

When will construction be started? Answer: It is impossible to say.

This has been brought to the attention of the railway interested and have been told they must wait until they want the bond guaranteed.

Wanted More Work Done.

Mr. Rutherford regretted that more work had not been done in branch lines by the C.N. and G.W.P. He had expected that both lines would be to Calgary by this time.

Mr. R. Bennett asserted that none of the railway companies should be allowed to borrow money on the Province's credit unless the Province was protected from a claim for extension of time.

The Premier said that all present bills were the bill insurance amendments, the act to raise the temporary in a bill the A. and G. W. bond money was secured, respecting claims caused by cancellation of the Waterways company and to incorporate the Royal College, Calgary. The others were small private bills.

O'Brien's Eloquent Address.

C. M. O'Brien delivered what was probably the best speech he has yet given in the Legislature and made a considerable impression on the members. Speaking under the impression that his coal mine amendment bill and his home-bill were both to be introduced, he delivered an eloquent address dealing largely with the Bellevue mine disaster and the conditions of miners generally in Alberta.

He made a strong plea for justice to the miners and claimed that his bill had been dealt with in a cowardly, huckstering method because the local bill committee to whom they were referred had refused to hold a session.

Malcolm McKenzie, chairman of the local bill committee, said he could not get the committee together. Notices were twice posted but there was no quorum. He was quite willing to have the bill come up in committee of the whole.

The coal mines bill will come up today as the result of Mr. O'Brien's speech.

Mr. Bennett said he was as much in sympathy with the Bellevue miners as anyone in the House. No human methods would make explosions in mines impossible. No mine would without explosions with big bags.

(Applause).

Mr. Bennett: "Wait till the clouds roll by."

Premier Sifton suggested as the member for Barthelet had asked the resolution to stand over it should not be pressed out of consideration to his feelings.

Mr. Moore after further discussion withdrew his motion to adjourn and the business proceeded.

E. A. Walker received answers to the following questions from the Premier:

Has the Canadian Northern started their Vernon-Blairburn line?

interest in coal mines. He intended that the mine laws should be as perfect as could be properly enforced.

Answer: Yes, to the best of his power.

TO RETURN PREMIER'S VISIT TO THE WEST

Delegation of Western Farmers Arrives in Ottawa—Premier's Visit to the West.

Every Direction Discharging Affairs of the West.

Calgary, Ont., Dec. 14.—Sir Wilfrid Laurier and his colleagues in the Liberal Government visited our West last summer. We, the representative farmers of the prairie of the empire, representing thirty millions of investments in the Canadian West, are coming down to pay a return visit and present some solid business propositions to Sir Wilfrid and his Government.

This was a statement that greeted the Toronto Star representative when he boarded at Carter early this morning the special train provided by the C.P.R. which is the only one of the most unique deputations that ever invaded the Capital of the Dominion.

The Watchword of the Delegation.

"On to Ottawa," is the watchword and cry of the men composing the delegation. Many wear badges, and banners are flaunted in the cars, bearing the slogan: "The representatives of the Alberta, Saskatchewan and Manitoba Grain Growers Association are hereby distinguished as each wears an attractive badge, the insignia of his association."

True life is agreed with the delegates, many whom have brought their wives and families along with them. Some of the families of such high rank as the Hon. J. H. Brown, among the three hundred and twenty people on board the thirteen cars. The executive officers of the three provinces occupy a special car at the rear. The delegates will put up at the New Russell Hotel.

Ottawa, Dec. 14.—When all the farmers have reached the city, nearly one thousand representatives of the agricultural strength of the Dominion of Canada will be present to discuss with our minister and his colleagues the welfare of the staple industry of this country, and when they have reached a decision upon various points which will come before the conference which they will hold in the Grand Opera House tomorrow.

Premier and his colleagues. The interview has been fixed for ten o'clock on Friday morning.

The first special train to arrive was from the West, bearing the delegates, and after a short stay in their quarters for the night. The special train arrived after a long journey of seven hours run from Winnipeg, the chief feature of the trip being a series of meetings held on board the cars each day to discuss matters which affect the farmers.

Members Meet Delegation.

The party was accompanied by Senator Davis, of Prince Albert, and a number of members of parliament traveling from Ottawa to meet them at Trenton. Among them were Hon. Campbell, Dr. Schaffner, Dr. Chalmers, W. H. Sharpe, John Horner, Wm. Wright, and C. J. Thomson.

Another train from the West is on its way to the city, carrying about 150 delegates. They will arrive in the early hours of the morning.

Many of the Ontario delegates are already in the city and by tomorrow morning the representatives of the other provinces will number over 200.

Representatives from Quebec.

The number of delegates from Quebec is not yet known, but it is expected that there will be a good representation. New Brunswick and Nova Scotia have two delegates each. Every province in the Dominion is represented except British Columbia and Prince Edward Island.

The proposed memorial on which the final tactics will be put tomorrow, is extremely long, and it is said that it will take three hours to read it. It covers seven distinct demands, including Government ownership and operation of the Hudson Bay railway and terminal elevators. It has been added to materially on the way east.

THE FINANCIAL AND COMMERCIAL MARKETS

WINNIPEG GRAIN MARKETS.

Winnipeg, Dec. 14.—Trade on the wheat and oat markets continues to remain in the lethargic condition which has been noticeable for the last few days. Dulness prevails in all options and cash trades. Lardered cables came 1-1/4 higher which had the effect of opening our market slightly above yesterday's close, but the range was again small. Demand for cash wheat was very light, but a few loads of No. 1 and No. 2 were sold at 1-1/4 and 1-1/2.

A UNIFORM MINING LAW.

Will Be Urged By Committee on Mines and Minerals.

Ottawa, Dec. 14.—At a meeting of the Committee on Mines and Minerals this morning, a sub-committee was named to go on the western tour.

Dr. Saunders, head of the experimental farm branch, is making his annual statement to the committee on agriculture this morning said that he estimated that there is in the Dominion 428,000 acres of land at present, only one-fourth of which is being cultivated at the present time. He estimated the cultivated land of British Columbia at one-tenth of the whole.
